# Initiation of expiry review investigation: Copper pipe fittings 2 (CPF2 2023 ER)

Ottawa, January 17, 2023

On January 16, 2023, the Canadian International Trade Tribunal (CITT), pursuant to subsection 76.03(1) of the Special Import Measures Act (SIMA), initiated an expiry review of its finding made on May 25, 2018, in inquiry no. NQ-2017-004, concerning the dumping and subsidizing of certain copper pipe fittings originating in or exported from the Socialist Republic of Vietnam.

As a result of the CITT's expiry review, the Canada Border Services Agency (CBSA) has today initiated an expiry review investigation to determine, pursuant to paragraph 76.03(7)(a) of SIMA, whether the rescission of the finding is likely to result in the continuation or resumption of dumping and/or subsidizing of the subject goods. The CBSA will make a determination no later than June 15, 2023, and will issue a *statement of reasons* by June 30, 2023.

The subject goods are "Pressure pipe fittings and drainage, waste and vent pipe fittings, made of cast copper alloy, wrought (or "wrot") copper alloy or wrought copper for use in heating, plumbing, air conditioning and refrigeration applications originating in or exported from the Socialist Republic of Vietnam, restricted to the products enumerated in Appendix 1."
